ANTONIO HOLLERMAN

Data Scientist

PROFILE

I am a software development student, eager to absorb as much knowledge as I can about the IT industry. My ambition is to become a data scientist, a role that perfectly blends my passion for computer science and mathematics.

EDUCATION

Miami Lakes Educational Center
Unweighted: 3.6
Weighted: 4.6
AP / Honors Student

Miami Dade College
GPA: 3.2
Approaching AA degree

PROJECTS

Stocks Market Value Analysis
Practiced data analysis, model development, and developing dashboards.

Anime Dashboard
Practiced web scrapping, formatting data, PostgreSQL database management, data analysis with queries, and developing dashboards.

Calendar Manager
Practiced GUI development with Tkinter, script writing for PostgreSQL / SQLite, and dealing with dates.

Password Manager
Practiced reading/writing txt files, basic encryption, and GUI development with Tkinter.

SKILLS

Python Developer
I am an intermediate Python developer and I used Python for all my past projects.

Data Analysis
I perform data analysis by revealing relevant information from the data I manipulate.

SQL Script Writer
Not only I can directly write scripts on applications like PG admin, but I also use APIs to access databases in my Python environment

Data Visualization and Dashboard
Using data visualization techniques I can effectively tell a story about the data at hand in a clear manner
